

We are currently experiencing an outbreak

Help us prevent the spread of infection

Visitors

Please speak with front desk or a staff member for further information.

Follow instructions from the care team, and wear all required personal protective equipment (e.g., medical mask).

Visitors and health-care workers

Please stay home if you are sick and have cough, fever/chills, sore throat, shortness of breath, vomiting, and/or diarrhea.

If you are a designated visitor and have symptoms, wear a medical mask and follow the guidance of the care team.

Clean your hands frequently with hand sanitizer or soap and water.

At minimum:

- before visiting
- before assisting with meals
- after assisting with toileting
- after visiting
