

What is a Value Analysis Team ?

Presenter: Gail Holmes

Date: March 10, 2017

Mission Statement

- ▶ As a provincial Clinical and Operations representation of the Health Authorities, each Value Analysis Team (VAT) shall optimize safety and quality of patient care, reduce costs and improve patient outcomes through objective, formal, customized and collaborative approach to product and service utilization decisions.

Value Analysis Team?

- ▶ Partnership between BCCSS Supply Chain and the Health Authorities

Guiding Principles

- ▶ Quality of Care
- ▶ Innovation
- ▶ Excellence
- ▶ Collaboration
- ▶ Transparency
- ▶ Continuous Improvement

The Present

- ▶ Value Analysis Teams give an opportunity for a provincial voice to be sitting at the same table to discuss and align products, equipment, practice and issues.
- ▶ Currently there are nine Value Analysis Teams in place, with other opportunities being discussed for future implementations.
 - Each team is comprised of one Operations Leader and up to three Clinicians, from each Health Authority, and one BCCSS Clinical Coordinator

Achievements

- ▶ Provincial communication
- ▶ Engagement of Clinicians and Operations Leaders
- ▶ Broad, robust discussion

Infection Prevention and Control Value Analysis Team

- ▶ Opportunities
- ▶ Benefits
- ▶ Future
